Rain That is Greatly Appreciated.

REJOICING IN ALL DIRECTION.

Farmers and Stockmen in High Spirits-Prospects for

Crops.

San Francisco, January 13,—Telegrams received tonight above that rain fell today along the coast of California from the northern extremity of the state nearly to Los Angeles. On account of the light rainfalls of this winter the above areas. the shower was much appreciated by farmers, to whom it was of great value.
The following dispatches show the area covered by the rain:
Maryaville—Half an inch of rain has

plowing and scoding grain had been suspended wing to the dryness of the searon.

Hendeburg—It has rained steadily all day and the indications are good for a continuance. The rain is just what stockmen and farmers needed for the cold weather kept the grass and grain back. The present downpour insures crops of all kinds.

Bakersiledi — Nothing suffering for rain, but some farmers have stopped seeding to see whist the season will be. The principal rause of apprehension is the lack of snow in the mountains. The water for summer irrigation comes from the snow in the series and so far but little has been deposited. The irrigators are preparing to make full use of the water in the spring mouths. Feed in the footbills needs rain hadly.

Woodland—A light vain has been fulling today and the indications indicate more. Early sown grain is up and locks well. The shower will sprout the late sown. The ground is in better condition than it has been for many years. If there is the usual sumount of rain from this time on the grain crop of Yolo county will be very large.

Merced—Rain commenced falling here before dayight this morning, and though the weather cleared up somewhat during the day, the storm resumed tonight and it is now pouring down with every prospect of an all night fall. Farmers have been very analous for rain for several weates. The prospects for a heavy urop are now excellent.

Redding-Rain began fulling early this morning, but so far it is gentle and little moisture has precipitated. The farmers needed the rain, but were not entilering.

Santa Cruz—Rain began falling last night and hose been coming down ever since. The farmers are pleased, as it gives assurance of bountful crops.

Stanford University—The rainstorm that has been gathering for the past west commenced about noon and has continued steadily ever since. Farmers are rejoicing. The precipitation is of incalculable benefit to growing grain.

Stocktor—The rainfall here for the past twenty-four hours has been just what was needed, and farmers are as happy as rain could make them. It is the general opinion that no season ever promised better at this time. The rain has follow when nost needed and not a drop has been lost. The fall up to this evening averages from three-quarters to one inch throughout the county. ever promised better at this time. The rain has fallon whon most needed and not a drop has been lost. The fall up to this evening averages from three-quarters to one much throughout the county, and rain is still falling. Here the fall at 8 o'clock is 72-100 of an inch and raining steadity.

Augustine denied admittance to colored children in the high school or other public school buildings, except those designated months and for the exception was of colored children. The exception was of George Washington Alexander Webster, a boy of 10 years, in whose name the mandamus proceedings were brought three months ago, and decided in his favor. Prof. Augustine holds that the decree of the court applies only to this one boy.

decree of the court applies only to this one boy.

In the high school building 500 white children and 50 colored children, two-sembled. A crowd of white men and megro men were there. White school boys had large stones in their pockets, with the intention of using them on mercues when they entered the building, it is ead every negro child in the city saked for admittance. Officers excepted four colored children into the high school. The teacher made a vigorous protest against receiving them, but the children were made to sit down. It is rumored that the entire school board is to be arrested for mothenyt of court. White citizens threaten to tear down the jail if the arrests are made.

Emperor William dld not mean to threaten was upon England by his mes against England, find little further credence. It seems to be accepted that the
German emperor simply intended to
express his own opinion of the Jameson
radi in that message, and the temporary
sentiment of irritation which it caused
him. This is the general feeling, apparantly, of the public wind, and those
organs of public pr minence which are
in touch with the government have undoubtledly sought to despar this impression. But this still leaves unexplained the uncontradicted assertion
that the German government did apply
to Portugal for purmission to pass marines through Portuguess territory at
Delagas buy to the Trauswal, nor does
it explain the undragging preparation of
war material and equipment of war forces
in England.

STAGE ROBBER SENTENCED.
Plead Guilty and Made a Fuil Confession.

Mencen, January 13.—Tex Kellett, the man who twice successfully robbed the Coulterville stage between Merced and Snelling last fall, and who was subsequently captured by Constable T. A. Mack of Merced in a cabin near Lagrange, where he was hiding, plead guilty in the superior court this afternoon and was sentenced to ten years at San Quentin.

Kellett hinde a full confession of the last robbery, telling in detail just how he accomalished the and reciting all the circumstances leading up to it. He even went so far as to tell the officers where he had the money he took from the express hox at the time of the last robbery, and offered to take the officers to tho spot where the money he took from the express hox at the time of the last robbery, and offered to take the officers to tho spot where the money he took from the express hox at the time of the last rebisery, and offered to take the officers to tho spot where the money was horied if they would go.

Mr. Pritchard, Republican, of North Carolina, made an address defending himself against the charge of inconsistency on its tariff question made by Mr. Hill of New York last week, and attacked Mr. Hill's record for consistency, eaying he had been republisted by the Democratic party.

Mr. Hill, in reply, expressed surprises at having brought forth so elaborate a statement, and said he believed that he was as active a member of the Democratic party. "what there is of it," as any one. He said it was true that he voted against the Wilson bill. He had reasons for voting against it. He believed in tariff reform, but not in that way. The lemocrate were all traveling toward the Democratic heaven, but in different ways. The other side was traveling in the other direction. The debate at this point drifted away to John Y. McKane, Mr. Hill saying that for many years McKane had been a Republican. Mr. Pritchard reforted that John Y. McKane, Mr. Hill saying that for many years McKane had been a Republican. Mr. Pritchard reforted that John Y. McKane had never got into the penitentiary until he joined the Democratic party.

Mr. Butler, Populiat of North Carolina, also took up Mr. Hill's statements concerning the politics of the south and asserted that the cause of the defection from the Democratic ranks in the worth was the betaryal of the perty on the great financial question and the opposition the New York senator took a most active part.

Mr. Hill jocularly responded to Nebraska's senstor, "Scattered worse than an old shotgun." He pointed out that if these gentlemen (Allen and Builer) wanted an income tax they ought to proceed to have one. Let them introduce the bill.
Mr. Hill closed with a glowing tribute to the "grand old Democratic party."
At 2 o'clock the personal controversy closed, and Mr. Morgan took the floor on the silver bond bill.
At 4 o'clock the senale adjourned until tomorrow.

For the of the truth of the assertion is needed, but for non-residents demonstra-tion might be required. If so, no small amount of such evidence was supplied in a recent issue of the San Francisco miner. It is easid that straws che which way the current flows. The En turiner eet a hayetack adrift on the river

of papular opinion.

The evidence offered by the San Francisco paper was in the form of a sympositing of the opinions of county and city afficials of the state. Of course no attempt can be made here to give these opinions, but an idea of the length and brea this of the territory they cover can be formed, by giving a list of the places represented by the writers. They are San Francisco, Oakland, Red Binff, Wilcoms Santa Barbara, Marywille, Santa of the oninions of county and San Francisco, Ossiana, Maryeville, Santa lows, Santa Berbara, Maryeville, Santa Oruz, Tulare, Freene, San Bernardino, Visalia, Redding, Yreks, Healdsburg, visatia, Redding, Yreks, Healdsburg, Santa Ana, Redwood City, Vallejo, Santa Rosa, Coluea, Nevada City, So-nors, Stockton, Eureka, Hollister, Ukiah and San Luis Obispo.

Bear in mind that they all are the

pointions of public officials, and you will the significance of the fact they are a unit in condemning a funding bill. The straws composing the hay-stack float in but one direction. As far s the opinious of these officials indiate, there is unity of sentiment con

as the opinions of three master concerning the matter, and the indication is practically correct. If a funding bill is passed by congress, it must be in epite of the united protest of Californians. The protest should be heeded for we are the people on whom the indebtedness must principally fall if it is continued.

The San Francisco Chronick has declined to print the long, bitter and acrimonious controversy between Father Yorke and Donald A. Rose on the issues between the Californians in left of the control of nestion in the bitter and personal manns myrelly adonted by its controversionamong good citizene to a degree that is ing good citizens to a degree the constraint of the immunity, and that the press can do a disservice to the public by rectraint the fury of these combatants and one service to the public by rectraint and disservice to the public by rectraint and district and service and the constraint of the combatants and district against our pasterday and district and the constraint of the constraint o genuine service to the public by restrain-ing the dury of these combatants o iar as its columns are concerne policy of the REPUBLICAN has been to report at fairly as possible pub-lic meetings and lectures held for the discussion of this subject, as an essential enture of the news of the day, and it has mitted an occasional communication n both sides of the controversy, but duly numerous and have shown a tendto degenerate into an exchange o pithets, access to these col-been shut off, to the lasting benefit, as we believe, of all parties con-cerned. The REPUBLICAN has recently en in receipt of several communication one of a rather torrid nature, from both Catholics and A.P.A.'s, but as they are not in our opinion calculated to subserve any good purpose they will not ppear in this paper.

The readiness with which the bonds of the forthcoming issue are being sub-scribed by home capital furnishes con-clusive proof that the late syndicate deal as wholly unnecessary and that the taxpayers were robbed of millions of dol-lars for no other purpose than the en-richment of as graceless a gang of capic-tallatic conspirators as ever looted a pub-

Work on Section Four of the Sec to be Resumed Forth-

with.

The city trustees met in special session last night, to consider the action to be taken on the unfinished sewer contract, eection 4, abandoned by Contracto Charles Goodiellow. The full board wa present, Mayor Craycroft presiding, The body of the hall was filled with laborers awaiting the issue of the dis-

The following report from the city en

ineer was read:
To the Honoroble Board of City Trus-tees, Fresno, Calif., January 1st: Gentlemen:—In regard to the work Gentlemen:—In regard to the work now being done on the city sewers I have to report that Charles Goodfellow, the contractor on section 4, has abandoned the work under his contract, and the same requires immediate attention. The said contractor loft the city on the 7th instant and failed to execute the work contracted for, or to furnish the material required. He has ramoved from the work all bricks and other material, and all the tools he had formerly placed there. The work is unfusibled, and a portion of the trench is loft open and exposed, I respectfully request your honorable body to take some action in the mater as early as possible.

"Louis Manuel, City Engineer." Immediately on the reading of this report the following resolution was moved by Spinney, seconded by McVey, and unanimously adopted:

"Whethers, The city engineer of this city has reported to this board that Charles toodfellow, the contractor on section 4 of the sawer system now being completed, has abandoned his contract and has failed to execute the work theremoder, and complete the same, or to furnish material therefor, and

"Whethers, It further appears to this board that such contractor that he has removed from the said work all brick and other building material necessary to complete the same, and all tools, and that the work is unfinished, and the city engineer distantished with the same.

"Wy therefore, the city engineer of this city is hereby ordered and directed w heing done on the city sewers

and the any.

Now, therefore, the city engineer of this city is bereby ordered and directed to employ any other person or person to proceed with the work previously being done by said contractor and complete same, and to charge the same paid. piete same, and to trange the same, and to the such persons as so nutted money paid to the contractor after giving three days notice in writing of his intention to so complete said work by serving notice on the contractor or his agent or foremen

the contractor or nu agent or totenous on the work." At once signed accordance of the notice, and the men will doubtless got ownk today. The notice to the contractor or his agent is virtually a notice to the hondensen.

Spinney asked who would have to my for thu watchman now engaged night and day on the abandoned sewer. The city attorney thought there was enough money in the eewer fund to pay for these. Impectors are paid by the city out of this fund.
Spinney thought as the watchman were necessitated by the action of the contractor they ought to be paid out of the money due him and not out of the city fund. He also thought the sewer ought to be tested before being accepted, by holing illied with water, as there might be errore in the grado, and he made a motion to that effect which was carried.

made a motion to that effect which was carried.
Attoracy Gallagher asked the board to be careful in distributing the money due on a pro-rate basis, so that the interests of all creditors might be protected. Spinney said it was the desire of the board to eas that ait to whom Goodfulow was indebted not their money. Gity Attorney Moultrie called attention to the fact that the suit of the Freeno Milling Company against the city for Illing up the mill ditch on Freeno street is about to come up for trial, and stated that the records in the case were probably destroyed in the court house live. Stenographer Gearhart has, however, notes which would be of great value, and a transcript of which can be obtained for \$30. On motion of Spinney Mr. Moultrie was instructed to incur the expense manued. The board then adjourned.

The motion was carried without opposition.
Another painful allence was in prospect, but the chair was equal to the occasion. "If Mr. Cummings will not serve as secretary without pay," said he, "I suppose we will have to elect a new recreatry."
Mr. Cummings replied that he could not serve very long in that manner. It should be explained that the dottes of secretary are quite oncrous and the 3m a month, which Mr. Cummings has been receiving, is not a fancy compensation by any menns.
It was then agreed that the principals of the different school houses should attend to needed school supplies and perform other duties of the secretary. Mr. Cummings would only have to keep the minutes of the board, and this lie willingly consented to do. Professor Hearton, who was present, said he would be glad to take upon himself some of the work of the secretary.

sired as part of n plan to run a railroad through a town.

Bold and overbearing as the Sonthera Pacific is it realizes that it has as many enemies at present as it cares to encounter, and we need not expect it to the progress of the new line as is teared. Nor can it he in inaginate that there are public officers in the San Joaquin valley who could be induced to lend their nower to any such plan should it be undurtaken. The Valley road offers the liret and only hope for that section of the state, and the people whose home and interests are there will not permit it to be smothered. The decision by the apprent court, therefore, gives no ground for a fear that the progress of the new road will be checked.

unfortunate

Its best use is before you fear consumption; when you begin to get thin, weak, run down; then is the prodent time to begin to take care, and the best way to take care is to supply the system with needed fat and strength. Scott's Emulsion of cod-liver oil, with hypo phosphites, will bring back plumpness to those who have lost it, and make strength where raw cod liver oil would be a burden.

an Application for a Gardener's Job Gets & Warm Reception.

Chairman Wickersham of the Board of Supervisors was back in his of resumed when the January session was resumed yesterday afternoon. In the absence of Olerk Johnson, through sickness, E. E.

Bush recorded the proceedings.

N. P. Justy made application for a deed to a piece of county land sold to lodge 138, Knights of Pythias, in 1892, for cometery purposes. The matter was referred to the District Attorney.

W. J. Rucchisson saked for immediate consideration of a small bill against the county, but was told the account would have to take its turn with

coult would have so take it can with others. Judge E. W. Risley applied for an order for the return of overpaid taxes on personal property, \$25 and \$24.17, or \$49.17. He was told the matter would receive attention in due course. City Recorder A. M. Olark asked leave to explain some items in his Decem-ber bill of \$112 under the laws of 1895. He was given a hearing, and was told the account would be attended to in

ener at \$40 a month, adding that his shilly could be well attested and that he had held good positions.

All Ashuret scarcely realized what was in store for him when Wickersham expressed gratification at the discovery of the applicant's ability as a gardener.

"Of course," said the chairman, "I should be very much apposed to giving anybody \$40 a month as gardener."

The applicant's face fell rapidly and he evidently began to see that the letter was an awaward mistake especially that part setting forth his ability and demanding a salary.

"It appears to me, Mr. Chairman," said Letcher rising, "that the county has been imposed upon in this case. Here is an immate of the county hospital who is on his own showing an ablebodied man entitled to a salary of \$40 a month. I move that the steward be instructed to discarge him at once."

Sayre seconded the motion, Rose and Garrett voide no.

The applicant left the room with a look of unutterable dignat. He will doubtees be readmitted to the hospital in a day or two, but it will be a lesson.

HIS \$100,000 BANK ACCOUNT.

Mis \$100,000 BANK ACCOUNT.

What Happened When a Capitalist Suddealy Met His Bank's Paying Teller.

A paying feller of a down town bank tells an interesting story of a Cabina experience of his. "I shall never forgot," in said, "how I nearly sent a man into fits one day last winter, all because I met him mexpectedly.

"I had been planning a little jaunt down to Cuba for some time. As it was doubtfut when I should he able to get away from the hank I said nothing about it to my friends or the hauk's enactioners. I had been instrumental in getting a good sized account for the bank—one of those \$100,000 ones that are hard to pick up nowadays and worth quite a good deal of money to us. I knew the head of this causern, and, in fact, had get the account through him. He told us when he gave it to us that he was in a burry to get it fixed satisfactorily because he was about to go to Cuba.

"As soon as I was able to get away I sailed for Havana. I staid in the island nearly a month, having a most delightful time and keeping one cyo open for my friend of the man. I staid in the island nearly a most ready to start for home when I met him, quite by chance, in one of the Havana alongs. When he saw me be jumped back about five feet, as if he had been shot from out of a gaun.

"God bless my sool—you here?" he said. "Why, what?" He soemed struck all in a heap. "You here? Good beaveries!" I had to laugh, and haugh hard at that, for I know what was troubling him. He was thinking of that \$100,000

him. He was thinking of that \$100,000 halonce, and worrying about it—a little, You see, as I was the paying teller of the bank, the thought naturally flashed through his mind that I had skipped with the bank's funds and a large slice of his hundred thousand.

of his lundred thousand.

"Of course, as soon as he saw minogh and his excitement had cooled down a little he began to see the four of the thing and that he and the bank were going home on the same steamer and ten minutes later weakland over to the American causal's office together und got our passports vised. And we had a joilly time of it back on the heat."

PRIVATE MASQUERADE.

the godial peason was the private mas-

cessful in providing entertainment for them. The masqueing was unusually amus-ing. The young people enjoyed them-selves as only young people can. There were many genuine surprises when the masks were removed. Dancing was con-tinued and the party broke up after an evening of novel entertainment for the young people.

"IN OLD KENTUCKY" TONIGHT.

It Will Be Presented by the Original Company,
"In Old Kentucky," which appears at the Barton opera house tonight, is one of the few American plays that has achieved great financial success. Better than any of these-called southern plays, it promises to endure for several years. The story, while abounding in ettring and sensational scenes, is romantic and idyllic by turns and is told with a directness of purpose and switness of action.

deed, romance, humor, shiendid cleancut comedy are combined with keen dramatic instinct. The characters are
drawn with skill. The strength of the
play, or more properly speaking, the
secrete of its great popularity is ascribed
to the vigorous and unconventional
manner in which the author has handled his material. Its healthful tone
makes it welcome. He extraordinary
runs both in New York and Boston to
crowded houses give it an indorsement
which it is the lot of few plays to receive.
It is not a No. 2 company which will appear here, but the original scenery.

Manager Bartom has arranged with
the Southern Pacific Company to hold
the train for the company is order to
give his patrons a complete performance.
The advance sale of seats has been exceptionally good and a large attendance
is assured. The prince of atmission are
\$1,75,50 and 25 cents. The curtain will
rise at 8,15 sharp.
